# MESSAGE FROM THE DEAN

Dear Students:

We, in the Dean's Office, are delighted to get to know you and guide you on your journey toward becoming well-trained physicians.

Medical school challenges the best and the brightest minds to learn the science of medicine and the art of compassionate care for patients. Our faculty is comprised of professionals who are passionate about their work and are eager to make significant contributions to facilitate the successful completion of your medical education and prepare you for your career as physicians.

We encourage you to take advantage of our program, where the emphasis is not merely on grades or class rank, but on critical thinking through participation in patient care, the development of strong clinical skills, and responsible professional behavior.

Becoming an excellent physician requires more than good grades. Becoming an All Saints physician requires something more – compassion, a sense of community-mindedness, and leadership. It is that “something more” that is the hallmark character of an All Saints University medical graduate.

On behalf of our faculty and staff at the College of Medicine, we are pleased that you have chosen to spend the next few years with us at this stage of your professional development.

I am certain that you will have a meaningful experience.

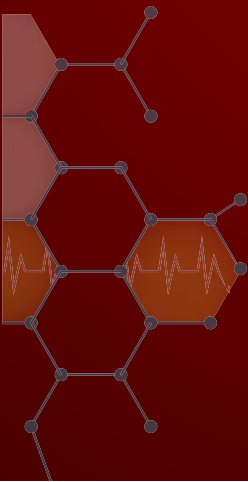

Dr. Terrance Marcelle, MD, JD, MBA

# OVERVIEW

To date All Saints University has nearly 1,000 students in various stages of their medical training throughout the world!

All Saints University is dedicated to providing our graduates with a solid medical background so that they may succeed as medical professionals. All Saints strives to ensure that it produces broadly and thoroughly educated graduates who realize that the medical profession denotes a sense of social responsibility.

We seek students who demonstrate a strong drive and desire to succeed and achieve, while still being able to maintain a focus on the compassionate and humanitarian aspects of the field. Students must regard medicine as a noble profession, not simply a trade to be learned.

# ST. VINCENT & THE GRENADINES

*A great place to study.*

All Saints University College of Medicine in St. Vincent & the Grenadines is our newest campus located in Belair, Kingstown. Our students are exposed to the rich culture of St. Vincent during their short stay on the island.

## But Why St. Vincent?

Small class size that enhances the individual learning experience.

Professors that provide individualized attention to each student.

Experienced full time faculty that enriches student academics.

Affordable tuition fees.

Individually sponsored merit-based scholarships.

Warm, friendly and safe learning atmosphere.

A great place to study and graduate – St. Vincent & the Grenadines!

DREAM

DISCOVER

REALIZE

All Saints University Saint Vincent and the Grenadines.

We appreciate that making the decision of which medical school to attend is a difficult one for students as well as their parents. In this viewbook, we have to some of the questions you may have already thought about or that may come along later.

This community will become your “home away from home” and ultimately will contribute to your personal and academic success at All Saints University.

# DID YOU KNOW?

More and more students choose to study at ASU because our university offers more than just a medical education. We offer an experience!

## DID YOU KNOW?

All Saints University is the ONLY Canadian owned offshore Caribbean School with 2 campuses!

Each semester All Saints University welcomes students with great potential at both undergraduate and graduate levels from all over the globe. Our students are attracted by the chance to study at an internationally renowned University with outstanding achievements and innovation.

Through the academic and enrichment components of All Saints University, students will enhance their communication skills essential for medical school studies through oral presentation, writing assignments and group discussions.

They will develop strategies to improve competitiveness for medical school success through group and individual advisors, admission seminars, board style questions and a workshop on test taking and study skills.

# ACCREDITATION

All Saints University College of Medicine holds a charter issued by the government of St. Vincent & the Grenadines to credit it as an established medical college. All Saints University graduates will be eligible for licensure in the United States, Canada, United Kingdom or any country that recognizes the FAIMER International Medical Education Directory and WHO/AVICENNA Directory of Medical Schools.

All Saints University has a student body from North America, South America, Africa, Asia, Australia and Europe.

# APPLICATION

## APPLICATION OVERVIEW & ACCEPTANCE

Grades are not the only criteria for acceptance. The Admissions Committee looks for student participation in volunteer and extra-curricular activities. Motivation and perseverance are some of the attributes considered in the selection process.

## FOR MD PROFESSIONAL PROGRAM APPLICANTS

The members of the admissions committee will consider various factors in the evaluation process. For students from North America, MCAT is optional but highly recommended.

## BSc AND COMPLETION OF PREREQUISITE COURSES

Students with the necessary prerequisites can gain entry directly into the 4 year MD degree program.

## BA OR BSc WITHOUT COMPLETION OF PREREQUISITES

Student without the fundamental science courses, but having university courses equivalent to some of the prerequisites, can transfer the credits and complete the remaining required courses through the premedical component. For example, if a student has mathematics and English, he or she can transfer the credits and complete the missing prerequisites such as physics, chemistry or biology through the premedical component. The length of the Premedical program will be shortened accordingly. All prerequisites must be completed prior to entering the 4 year MD degree program.

# THINGS TO SUBMIT

The following items must be submitted for evaluation when applying to All Saints University

Completed Application Form

Official Transcripts from High School, College or University

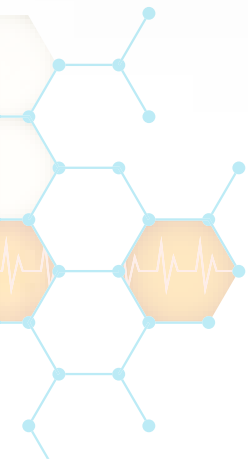

2 Letters of Recommendation

3 Color photographs (passport size)

MCAT scores (if available)

TOEFL scores (if available)

Application Fee – US \$100.00

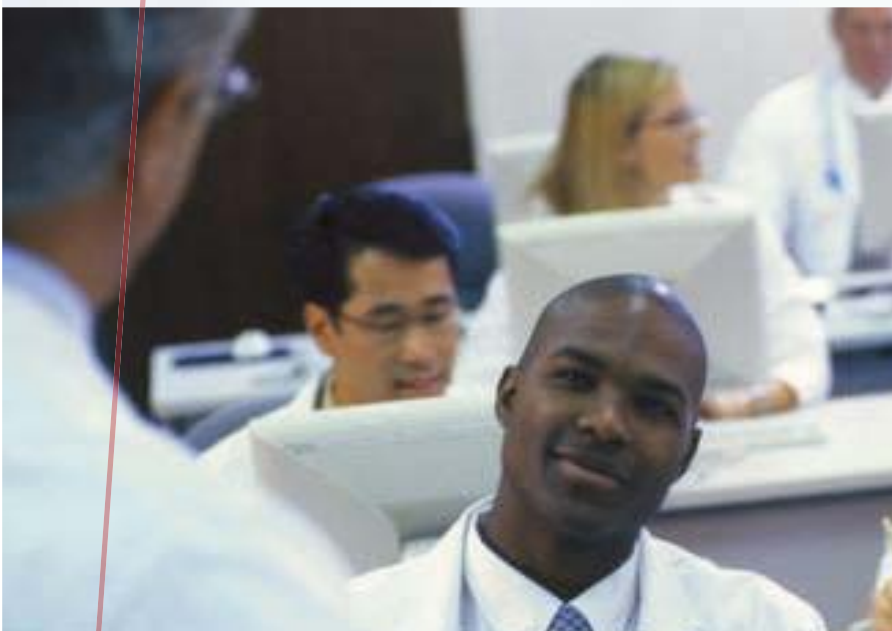

# ACADEMIC PROGRAMS

## MEDICINE

### 4 Year MD | 5 Year MD

The 4 year MD degree program is designed for applicants who have a Bachelors degree in the Sciences or the necessary prerequisites. It consists of 2 academic years of Basic Sciences followed by 2 more years of Clinical Clerkships. Basic Sciences are conducted in the campus of St. Vincent. Clinical clerkships take place in teaching hospitals in various locations including the USA, Canada, St. Vincent, and UK to name a few.

If you are a recent high school graduate and interested in getting a direct admission into Medicine, then the 5 year MD degree program is the most suitable option. This program consists of two academic years (4 semesters) of premedical courses followed by the 4 year MD degree program. Students are exposed to medical topics early in their education for a seamless transition into the Basic Sciences.

# CURRICULUM

## PREMEDICAL COMPONENT

### WHAT YOU NEED TO KNOW:

Length of program – 4 Semesters | 1 year and 4 months.

#### PreMed 1

Intro to Gross Anatomy I

Mathematics (Algebra + Statistics)

General Chemistry

Physics I

English I

Biology I

#### PreMed 3

Organic Chemistry II

Intro to Physiology I

Intro to Histology

Intro to Microbiology I

Drugs & Diseases I

Intro to Medical Ethics

#### PreMed 2

Intro to Gross Anatomy II

Mathematics II (Calculus + Trigonometry)

Physics II

Biology II (Genetics)

Organic Chemistry I

General Chemistry II

#### PreMed 4

Drugs and Diseases

Intro to Embryology

Intro to Epidemiology

Intro to Physiology II

Intro to Microbiology II

Sociology

\*MCAT Programs are conducted in our affiliated US/CAN facilities.

+ Successful completion of National Board of Medical exams (NBME)

# ALL SAINTS UNIVERSITY

## CLINICAL CLERKSHIPS

### HOSPITAL ROTATIONS

All Saints University students rotate in ACGME-approved teaching hospitals throughout the United States. Presently, both core and elective rotations are available in the following US States - Illinois, Missouri, Michigan, Georgia, Nevada, Colorado, Ohio, Oklahoma & Indiana. Elective rotations can also be arranged in other states. Rotations are available in other countries such as Canada, the UK, Mexico, the Caribbean etc.

The following is a partial list of ACGME-accredited / teaching hospitals in the United States where All Saints University students have completed their rotations or currently doing so. Our students also rotate at other approved affiliated teaching hospitals throughout the United States and Canada.

#### Chicago, Illinois:

St. Mary and Elizabeth Medical Center, Chicago, Illinois  
Jackson Park Hospital, Chicago, Illinois  
Norwegian American Hospital, Chicago, Illinois

#### Atlanta, Georgia:

Atlanta Medical Center, Atlanta, Georgia  
DeKalb Medical Center, Lithonia, Georgia  
Floyd Medical Center, Rome, Georgia

#### Indiana:

Parkview Hospital, Fort Wayne, Indiana

#### Maryland:

Washington Adventist Hospital, Tacoma Park, Maryland

#### Utah:

St. Mark's Hospital, Salt Lake City, Utah

Lutheran Hospital, Fort Wayne, IN

## Years 3 & 4

In the third and fourth years, students become directly involved in the care and study of patients at our affiliated teaching / ACGME-accredited hospitals, some of which are listed above. They begin to work with members of team caring for hospitalized patients.

Third year students rotate through the following clerkships:

- Internal Medicine
- General Surgery
- Pediatrics
- Psychiatry
- Obstetrics/Gynecology
- Family Practice

The fourth year consists of a minimum 24 weeks of electives. The clerkship program is designed to help students further discover where their interests lie when choosing their postgraduate training. The clerkship program introduces the student to the many fields of medicine, enhancing both their differential diagnostic, treatment and management skills.

Clinical faculty members evaluate the students' performance in every rotation. Personal and professional attitudes, appearance, knowledge and performance are some of the criteria evaluated during each rotation.

The university always maintains high academic standards for its students and these same high standards are used in evaluating students at affiliated teaching hospitals. A student whose achievements are not up to these standards is informed as early as possible during a rotation and will be given assistance and counselling.

# CURRICULUM

## MD

clinical sciences component

What you need to know:

Length of program – min. 72 weeks

Locations: Core Rotations and Electives

USA | Canada | SVG | Dominica | UK

## CORE CLERKSHIPS

Internal Medicine | 12 weeks

General Surgery | 12 weeks

Obstetrics & Gynecology | 6 weeks

Pediatrics | 6 weeks

Family Practice | 6 weeks

Psychiatry | 6 weeks

## INTERNAL MEDICINE

In this clerkship, students learn the steps necessary for proper diagnosis and treatment of patients. Students learn how to take complete medical, personal & family histories, to do a diagnostic work-up and to develop a plan for managing a patient's immediate care. They participate in clinical conferences where they learn to report their findings and logical conclusions.

Duration: 12 weeks

## PEDIATRICS

During the pediatrics clerkship, students acquire special skills and knowledge required for the examination, diagnosis and treatment of infants, children and adolescents.

Duration: 6 weeks

## GENERAL SURGERY

In the course of the surgery clerkship, students learn about conditions requiring surgical intervention and have opportunities to observe how surgical patients are managed. In the process, they become familiar with the policies and procedures followed in the operating room.

Duration: 12 weeks

## PSYCHIATRY

In this clerkship, students become familiar with the major categories of mental disorders, including diagnosis and some methods of therapy. In the process, they learn how to take a psychiatric history and evaluate a person's mental status.

Duration: 6 weeks

## OB /GYN

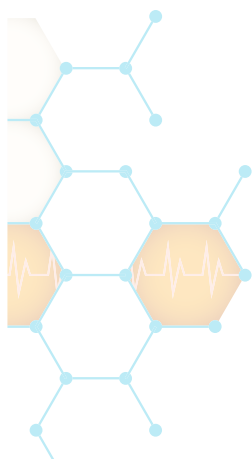

In Obstetrics & Gynecology, students learn about the changes that take place during pregnancy, labor, delivery and the post-partum period. They also become familiar with diagnosis and treatment of major gynaecological diseases and various methods of family planning.

Duration: 6 weeks

## FAMILY PRACTICE

In family Practice, students acquire an understanding of the principles of primary care and of how these principles apply in community practice. Emphasis is placed on continued and comprehensive health care for people of both sexes and all ages within the context of their families, social groups and communities. Particular attention is paid to the diagnosis and treatment of common medical problems and to help with maintenance, ambulatory care and the continuity of care.

Duration: 6 weeks

# FEES AND FINANCE

All students pay an application fee of US\$100.00 and an enrolment/administrative fee of US\$1,000.00 at the beginning of a course of study at All Saints University.

**Late Payments:** Fees are due two months prior to commencement of the enrolled program. If fees are not paid on time, deregistration may occur. A US\$250.00 penalty will be applied upon reinstatement. Returning students are required to pay tuition fees one month prior to the beginning of the semester or a US\$250.00 late payment fee will be charged. Citizens of St. Vincent and the Grenadines are awarded a 50% tuition scholarship.

## Students Government Fee

Every student is a member of the central student government. An additional US\$150.00 student government fee is to be paid annually, which translate to US\$50.00 per semester. This fee is to be paid in full at the beginning of every year, along with the tuition fee payment.

Any student who is absent for two terms without providing written request and without obtaining prior approval from the College administration is subject to academic sanction or dismissal at the College's discretion; this will be reflected on the student's transcript.

## Additional General Costs – Food and Lodging

Food and lodging can range from US\$500.00 to US\$1,000.00 per month depending on individual habits and preferences. Housing expenses usually vary depending on the type of apartment preferred and if you are sharing with roommates. When sharing an apartment, rent prices can be as low as US\$300.00 per month

The breakdown of fees for the 5 year MD Degree program is outlined below. Please note that all fees are in US Dollars. All students pay an application fee of US\$100.00 and an enrolment/ administrative fee of US\$1,000.00 at the onset or beginning of a course of study at All Saints University. Students are also required to pay US\$100.00 for insurance and US\$50.00 as a mandatory per semester Students Government Fee. Any student who is absent for two terms without providing written request and without obtaining prior approval from the College administration is subject to academic sanction or dismissal at the College's discretion; this will be reflected on the transcript.

| Semester 11 | 12 weeks | \$7,995.00 |

## Student Insurance

The government requires that students obtain proper health insurance before they arrive on the island. There will be no exceptions to this requirement.

## Indemnity/Malpractice Insurance during Clinical Rotations

All students are responsible for obtaining malpractice insurance prior to commencement of their clinical rotations. All Saints will assist students by providing information regarding insurance companies that provide the service required. Please note that the cost of malpractice insurance is not included in the tuition fees. The cost is approximately US\$1,200.00 per year.

## Tuition Refund Policy

A request for withdrawal must be submitted in writing, authorized by the Dean of Academics to the Director of Administration. The amount refunded for students who withdraw from the school in any term is as follows:

- 80% refund if enrolled for two weeks or less
- 60% refund if enrolled for three weeks or less
- 40% refund if enrolled for four weeks or less

The date of withdrawal is counted from the date of receipt of the withdrawal letter. Students are required to provide 1 semester notice of withdrawal.

# INTERNATIONAL STUDENTS

## SNAPSHOT

Students who are not Canadian or American students are considered international students. Equivalent qualifications for university admissions in their respective countries will be acceptable. Applicants will be evaluated on an individual basis. All Saints University has a growing international student population from many countries including Bahamas, Brazil, Cameroon, Colombia, Nigeria, Ghana, India, South Korea, Sri Lanka, Pakistan, Taiwan, United Kingdom, Norway, Sweden, The UAE etc.

## TUITION

International students follow the same fee structure as the US and Canadian citizens. Upon completion of the Basic Science component, students are required to pay a visa processing fee for entry into the US for clinical rotations. Contact the All Saints administration for details.

All international students are required to pay the tuition fee for a full year (first three semesters) prior to the commencement of the program. The refund policy is the same for all students. On acceptance students are required to submit the necessary documents to process their visa. No entry visa is required for St. Vincent. However, a transit visa may be necessary for travelling to St. Vincent through some countries. A visa is required for entry to St. Vincent from the following countries: Dominican Republic, Jordan, Syria, Iran, Iraq, Lebanon, Nigeria and China.

## To process a visa the following is required:

### SUBMITTALS

- Copy of your Passport (all pages)
- Health Clearance from the country of origin (should include TB and HIV test reports)
- Police Clearance from the country of origin
- Proof of Financial Support from parents or guardians

# TRANSFER STUDENTS

All Saints University may accept students intending to transfer from other accredited medical schools. Transcripts will be evaluated by the Admissions Committee in order to determine eligibility.

## Transfer Policy

Students transferring into the All Saints University MD Degree program are required to submit original copies of transcripts of academic records from previous medical schools, colleges or universities. The copies will be required later by the ECFMG before a student can sit for the USMLEs and when applying for the residency match.

Advanced standing will be given only to students transferring from accredited medical schools and/or schools listed in the International Medical Education Directory (IMED) and/or WHO/AVICENNA. The college does not award credits for Basic Medical Sciences courses completed online, by distance education, from non-accredited medical schools or schools not listed in the IMED and/or WHO/AVICENNA.

In exceptional cases, a student who has successfully completed Basic Medical Sciences and passed USMLE may be allowed to transfer into the clinical phase of the MD degree program.

## Transfer Policy for Students presently enrolled in a ASU Program

If a student of the College intends to withdraw from the medical school, he/she must submit in writing notice of such an intention at least one semester (4 months) prior to the date of withdrawal from the College, stating reasons. Failure to comply with this automatically means that the student will always be considered enrolled in the program for the following semester and must meet all of his/her financial and other obligations to the College. Notice of withdrawal from the college received in less than one semester (4 months) to the time of withdrawal will not be entertained and such student(s) will be deemed to be indebted to the College for the following semester.

# GRADUATION REQUIREMENTS

To be eligible to receive the MD degree upon graduation, students must complete ALL graduation requirements of All Saints University, St. Vincent.

1. Successful completion of 5 semesters of Basic Medical Sciences.
2. Successful completion of 72 weeks of approved clinical clerkships/rotations at affiliated or approved teaching hospitals.
3. Successful completion of National Board of Medical Examiners (NBME) administered Basic Science and Clinical Science Exit Examination, OR;
4. Successful completion of the United States Medical Licensing Exam (USMLE). In lieu of the USMLE a student may complete

the MCCEE conducted by the Medical Council of Canada.

In exceptional circumstances, a student may be permitted to skip any of the above mentioned examinations (USMLE/MCCEE) provided he/she completes comparable examinations by a national examination body of the country where the student intends to practice. This will be treated on a case by case basis.

5. A student must be in good standing. He/she must receive clearance from the different departments of the University including the student accounts department, the registry, laboratories and the library. He/she must also be of good conduct and character.

# STUDENT GOVERNMENT

“In a challenging and resource-filled community, such as medical school, there is nothing more worth-while and consoling than having an organized body that offers a sense of belonging and welcoming hands...and nobody does it better than The All Saints University SVG Student Council (ASC). We pride in loving and sharing, in a bid to ease each other’s challenges in studies, health, social, etc...as we have students from Canada, US, United Kingdom, Nigeria, Cameroon, India, Pakistani, Sri Lanka, Zimbabwe, Poland, etc., so, you can be sure of attention.

We create an atmosphere that encourages our ever-loving and dedicated students to press on and higher; and we never fail to stand up and stand in for you when the occasions arise.

We also understand that studying medicine could be so demanding that medical students often, unconsciously, fail to develop some other life necessities! Thus, we do encourage our students to be all-round progressive...this is attested by some social, educational and religious student bodies in our school, into which you would be welcomed.

Conclusively, we have quite a number of events, ranging from educational to social, to make your time in our great school a fulfilling one. We anxiously wait to welcome your precious self to our precious school and making you preciously precious.

For any further enquiries, [asu.student.gov@gmail.com](mailto:asu.student.gov@gmail.com)

- Gabriel Lasehinde  
ASC President

# CAMPUS FACILITIES

There are excellent, well-equipped histopath labs, neuro-anatomy labs, organic and biochemistry labs at ASU.

Physical and e-library facilities equipped with thousands of books and medical journals are also available for students.

Video centers, self study areas, group study rooms, and private reading spaces are also offered to enrich the lives of the students while on campus.

Classrooms are equipped with state of the art facilities, which include overhead projectors, LCD projectors, flat screen monitors, television/video equipment, weekly news scrollers and wireless internet throughout the campus.

# ST. VINCENT & THE GRENADINES

Pursue your professional goals in a tropical paradise!

Spend your time studying in a warm, sunny environment with year round tropical breezes that greet you daily.

From the gorgeous rainforests of St. Vincent to the immaculate beaches and stunning lagoons of the Grenadines, you will never run out of things to do and see when you're not in class or studying.

## Geography

St. Vincent & the Grenadines is a nation of 32 islands located in the Lesser Antilles between St. Lucia and Grenada. St. Vincent is the largest of the islands and possesses a spectacular forest-covered mountainous interior.

Kingstown, located in the southwest coast, is the nation's capital.

St. Vincent & the Grenadines is an English-speaking island nation comprised of approximately 110,000 people. The inhabitants of the island are nothing but hospitable, generous and welcoming.

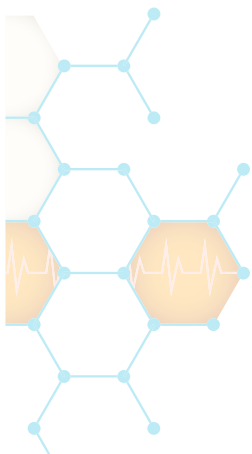

## Climate

Be prepared to bask in a tropical climate with the warmest months between June and September, when temperatures can reach an average high of 30 degrees Celsius. You will also be kept cool by the lovely trade winds that provide a welcoming breeze all year round. The months between December and May provide a cooler climate that is absolutely exquisite.

St Vincent & the Grenadines is 4 hours behind Greenwich Mean Time (GMT-4).

Driving is on the Left.

The Eastern Caribbean Dollar is the currency used.

However, the US dollar is widely accepted throughout the islands with a fixed exchange rate of US\$1.00 = EC\$2.68.

225 species of fish make scuba diving in the waters of SVG a breathtaking and worthwhile experience for every student!

White Squall as well as the Pirates of the Caribbean movie franchise were all filmed on the SVG islands.

# FACULTY

All Saints faculty is comprised of experienced and committed professors who are not only extremely knowledgeable, but possess excellent teaching skills as well. All Saint's faculty members take pride in providing quality education to their students, and in being easily accessible and accommodating. All our Basic Sciences professors are highly qualified and possess a minimum of either an MD, PhD or both.
